Jolanda Szekely

Tamas Szinyei

Lisa Torvik

We have watched you being alongside the President, when He appeared on television and talked about the proposed budget, which appears to become an important vehicle for remedy in this dangerous economic situation.

In behalf of the Minnesota Hungarians we want to express our pride that you are in this key governmental position so essential to a successful national policy. We know it is your talent and work to date that recommended you for this position, yet we cannot help but be proud that a Hungarian-American can contribute to the country at this level.

We wish you and colleagues the very best and hope you will be able to live up to these enormous challenges, much of which inherited, and help guide our country to safer existence, which also preserves (restores) the basic, humane American principles.

Immed.Past President

Agnes M. Fulop

God bless you,

Committees
